We are currently monitoring over **800** high-end APT groups and their infrastructures, allowing our clients to get a proactive upper hand in mastering their cyber resilience.

TEAM SIZE

Our team consist of **70+** cybersecurity professionals currently working from various locations across the globe.

PARTNERS

We have an extensive network of commercial and not-for-profit partnerships. By creating alliances with other private or public organizations, we aim to mitigate next-generation cyber threats and ensure the collective resilience of our digital world. Our partners include:

- Anti-Phishing Working Group (APWG)
- The Hague Security Delta (HSD)
- CyberPeace Institute
- Point de Contact
- Trust Valley
- EUROPOL

HOW CAN WE HELP YOU?

Based on our long-lasting expertise, we have developed threat and risk intelligence platforms that are unique in their ability to deliver verified, intelligence-led data. Specifically tailored and relevant for each customer, we provide more actionable insights and less workload. Various detection mechanisms and intelligence collection tools, reinforced by 24/7 analyst support ensure that any persistent threats are handled accordingly.
